Mobility

Access faxes on your handheld device with Adobe® Reader® for Palm OS® or Pocket PC

Online fax services from Innoport bring powerful and reliable faxing solutions to the digital economy. Sign up to obtain a personal, virtual fax number for receiving faxes in your email and to send faxes from the web or directly from your email account.

Dependability

Innoport offers immediate fax delivery in PDF or TIFF and simultaneous call acceptance to avoid busy signals. Various common formats, such as Microsoft® Office programs, PDF, plain text and image files are supported for fax sending.

to learn more.

Accessibility

The open standards of our fax services give you universal access to faxing. With no software to install or hardware to purchase, you'll save time and money on equipment, telephone lines and paper costs. Plus, you can easily fax from anywhere.

Sensitive data secured

To safeguard the contents of fax transmissions traversing throughout our network, we offer several secure messaging solutions, including PDF delivery with 40 or 128-bit encryption as well as FTPS (FTP over SSL) fax delivery. Our industry-leading secure fax solutions are trusted by top enterprises in such market verticals as banking, mortgage, insurance and healthcare, where confidentiality of client financials and patient information must be protected.

Workflow automation

Design custom fax workflow processes with FTP delivery. Our HTTPS faxing API lets you integrate outbound faxing into your web and stand-alone applications. For form data processing and indexing, our OCR fax cover sheet solution automates document routing and file naming.
